From the INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

To: GILL JENNINGS & EVERY Broadgate House NOTIFICATION OF TRANSMITTAL OF 7 Eldon Street THE INTERNATIONAL PRELIMINARY EC2M 7LH London **EXAMINATION REPORT** GRANDE BRETAGNE (PCT Rule 71.1) Date of mailing (day/month/year) 05.02.2004 Applicant's or agent's file reference **IMPORTANT NOTIFICATION** MJB07104WO International filing date (day/month/year) Priority date (day/month/year) International application No. 24.03.2003 08.04.2002 PCT/GB 03/01253 Applicant COOPER CAMERON CORPORATION et al.

- 1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
- 2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
- 3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed inventions is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/GB 03/01253

l. Bas	is of t	he re	port
--------	---------	-------	------

1. With regard to the **elements** of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

	De	scription, rages					
	1-1	2	as originally filed				
	Cla	ims, Numbers					
	1-1	8	as originally filed				
	Dra	wings, Sheets					
	1/7-	7/7	as originally filed				
2.	Wit lan	h regard to the langu guage in which the in	age, all the elements marked above were available or furnished to this Authority in the ternational application was filed, unless otherwise indicated under this item.				
	The	ese elements were av	railable or furnished to this Authority in the following language: , which is:				
		the language of a tra	anslation furnished for the purposes of the international search (under Rule 23.1(b)).				
		the language of pub	lication of the international application (under Rule 48.3(b)).				
		the language of a tra Rule 55.2 and/or 55.	anslation furnished for the purposes of international preliminary examination (under 3).				
3.			ectide and/or amino acid sequence disclosed in the international application, the examination was carried out on the basis of the sequence listing:				
		contained in the inte	rnational application in written form.				
		filed together with th	e international application in computer readable form.				
		furnished subseque	ntly to this Authority in written form.				
		furnished subseque	ntly to this Authority in computer readable form.				
		The statement that t in the international a	he subsequently furnished written sequence listing does not go beyond the disclosure application as filed has been furnished.				
		The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.					
١.	The	amendments have r	esulted in the cancellation of:				
		the description,	pages:				
		the claims,	Nos.:				
		the drawings,	sheets:

INTERNATIONAL PRELIMINARY International application No. PCT/GB03/01253 EXAMINATION REPORT - SEPARATE SHEET

Ad V:

Compared to the document GB-A-499024 as nearest prior art, which describes a separator for a multiphasic fluid having a helical flow path, claim 1 as main novel feature prescribes an annular main bore with outlets for each of the fluids to be separated. The novel feature provides a simpler device for separation of subsea hydrocarbons. As all the documents cited in the search report teach the use of spiral or helical flow to separate a multiphase fluid, claim 1 as non-obvious alternative is considered to meet the requirements of Article 33(2) and 33(3) PCT. The industrial applicability is evident (Article 33(4) PCT).
